

Lexington County Community Development

Problems with your septic tank? Ask if we can help!

Community Development Block Grant (CDBG) funds are spent on projects and activities that primarily assist low and moderate-income persons.

Lexington County has allocated funding through its CDBG program to assist homeowners with the repair and/or replacement of a failing septic system. Homeowners that meet the CDBG income requirements can apply to have their septic tank repaired at no cost.

If you, or someone you know is having problems with their septic system, and would like to see if you qualify for repairs under the CDBG program, or for additional information, please see Sandy Fox in the Community Development Grants Division or call (803) 785-8121. You may also see the receptionist for an application or visit www.lex-co.sc.gov.

Don't let poo happen to you!

Signs of a failing septic system:

- Water pooling in your yard
- Wet, mushy ground
- Septic backing up in house
- Foul odor from your yard

Proper septic tank maintenance:

- Conserve water to reduce stress on your tank
- Pump your tank regularly
- Don't flush coffee grounds, household chemicals or grease
